

Ladies, it's your
time to shine

**and OMSMAF is here
to help make it count.**

Always remember, when it comes to your health and wellness you
are the star of the show and there is no one who can shine more
brightly than you.

**OMSMAF is here to help you make it count by providing
you with wellness benefits unlike anyone else.**

And if you are a husband, father, brother, son, nephew or partner
of an amazing woman, don't stop reading – now is your chance to
help her take better care of herself.

After all, a strong and dynamic woman deserves only the best. We
completely understand that, which is why we cover your GP or gynaecologist
consultation, up to Medical Scheme Rate, directly from your wellness benefits
to make it as easy and accessible as possible for you to have those important
annual screenings, such as your pap smear, over and above the standard
screening benefits you would get with other schemes.

**We also do not impose age restrictions on mammograms
and have put the necessary benefits in place so you have one
every single year rather than only once every two years.**
